

Nilogel™ quickly absorbs and deodorizes all water-based spills. **Nilogel™** contains the Original Super N Concentrate which enables it to destroy even the toughest odors. **Nilogel™** will instantly absorb over 100 times its own weight, which means that in seconds, one 12 oz. can is able to convert up to 11 gallons of liquid into an odor-free, easy-to-clean semi-solid.

To deodorize and congeal liquid spills, vomit, urine, and other accidents, sprinkle **Nilogel™** powder over the problem area. In just seconds the spill becomes a manageable semi-solid that's easily swept away or scooped up for disposal.

- **Tile**
- **Concrete**
- **Wood**
- **Marble**
- **Linoleum**
- **Terrazzo**
- **Carpeting** (Non-Chlorinated Nilogel only)

Nilogel™ is non-toxic and biodegradable, making it user and environmentally friendly.

Nilogel Deodorizing Liquid Absorbent

Original Non-Chlorinated

8NLC

12 oz. Shaker can / 6 per case

Nilogel Liquid Spill Absorbent

- Absorbs 100x's its own weight
- Easy to clean up
- Minimal waste
- Re-useable container
- Great fragrance

COMPETITIVE BRAND VS. NILOGEL

COMPETITIVE TESTING

Both glasses are filled with 180 mL of warm water.

1 cap (6 grams) of Nilogel is added to the first glass and stirred. Nilogel instantly absorbs and congeals the liquid in the first glass.

1 cap (6 grams) of the competitive product is added to the second glass and stirred. The competitive brand is still in liquid form.

After 26 caps (156 grams) of the competitive product are added, the liquid is finally absorbed.

CONCLUSION: 1 gram of Nilogel absorbs as much as 26 grams of the leading competitive product.

VS.

COMPETITIVE PRODUCT

- Needs a 1/2" layer to cover the problem area
- Messy clean up
- No re-useable container
- Bad fragrance
