

You can't stop the warmer weather... But you can stop Dumpster Odors

Nilodew Dumpster Deodorizer is an easy-to-use clay based granular deodorizer that contains a natural odor absorbent, with a proprietary odor neutralizer to fight odors, and Citronella oil. **Nilodew** is used to control and neutralize foul odors in and around dumpsters, compactors, trash cans, and recycling areas for up to 7 days.

Nilodew Dumpster Deodorizing Granules

- Works around the clock
- Just add 1-2 lbs. to an average size empty dumpster
- Contains citronella oils
- Warmer weather activates it even more
- Environmentally and worker friendly
- Water and rain will not effect the deodorizer

Every year millions of dumpsters, trash cans, and dumpster areas are neglected.

What it means for you and your business

- Severe odor problems in and around your business
- Attraction of unwanted insects & rodents
- Bad customer reviews and possible lost customers
- Lost revenue \$\$

For an average of 5 minutes per week and very little effort, you can save a smelly dumpster.

Nilodew™ Dumpster Deodorizing Granules

Works around the clock to eliminate dumpster and trash odors
