

**Preserve and Protect
the Feel, Luster, and
Scent of Fine Leather**

Leather Cleaner & Conditioner Helps clean, moisturize, and revitalize your leather, restoring the natural oils and sheen. Prevents surface aging, cracking, and fading while keeping leather and vinyl looking new.

- Office Furniture
- Auto Interiors
- Luggage
- Home Furniture

Plus many other smooth pigmented, finished leather products.

Why our Leather Cleaner works so well-

The primary active ingredient is a silicone blended with surfactant chemistry. The silicone provides the polish and shine, while the surfactant provides the cleaning. Together, this material dries and forms a protective barrier on the leather which prevents UV damage/fading and keeps the leather supple.

Key Benefits of Encapsulating Extraction Cleaner

- Outstanding leather scent
- Streak free
- Fingerprint resistant
- Softens and renews leather
- Environmentally friendly
- Low VOC

-Cleans -Conditions -Protects

And many other smooth pigmented, finished leather products.

Why our Leather Cleaner works so well-

The primary active ingredient is a silicone blended with surfactant chemistry. The silicone provides the polish and shine, while the surfactant provides the cleaning. Together, this material dries and forms a protective barrier on the leather which prevents UV damage/fading and keeps the leather supple.

Always test on all surfaces in an inconspicuous area before using. If surface discolors, fades, do not use.

1. Spray onto soft, clean cloth or Microfiber cloth. Apply moistened cloth to leather and rub to a shine.

Do not use on suede, unfinished or extremely soft leathers.
