

Encapsulating Carpet Spotter

Environmentally Responsible

Encapsulating Carpet Spotter is an ideal, all-purpose spotter that breaks down a wide range of spots and stains. Used in the same manner as a traditional spotter, but does not contribute to re-appearing spots. Remove the spot one time and forget it!

Key Benefits of Encapsulating Spotter

- Leaves no harmful residue
- No rinsing required
- Prevents soil wicking
- Eliminates rapid re-soiling
- No sticky residue
- Carpets stay cleaner longer

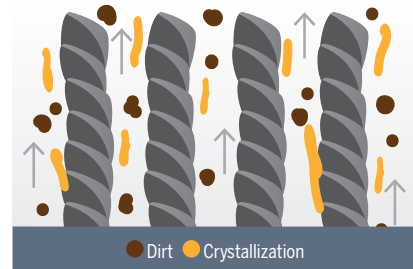

Traditional detergents leave behind sticky residues that lead to rapid resoiling. But the Structured By Nature encapsulating detergent dries into a hard crystalline material that fractures off the carpet fiber during the dry vacuuming process. Therefore an important benefit of encapsulation is that any residue left behind is of a non-sticky nature, and consequently does not result in rapid resoiling.

Polymer attaching to the fiber

Encapsulating All-Purpose Spotter

The perfect multi-purpose spotter

Economical - Dramatic labor and chemical savings realized by the customer.

Versatile - Can be used with the latest low moisture equipment and also compatible with traditional carpet cleaning equipment

Chemical program enhanced by the Certified Pile Brush. Nothing is more effective at removing dry soil. Plus the environmental benefits of no solution or recovery tanks to service.

Encapsulating All-Purpose Spotter

DIRECTIONS: Shake well before using. Test fabric in inconspicuous place for color fastness before using.

1. Wet with plain water.
2. Liberally apply All-Purpose Spotter to affected area.
3. Work spotter into carpet pile and blot with a clean white towel.
4. Rinse with clean water, and blot with a clean white towel.
5. Repeat if necessary.
6. Vacuum when completely dry.

NOTE: Freezing will not affect cleaning power. Thaw, shake well and use.

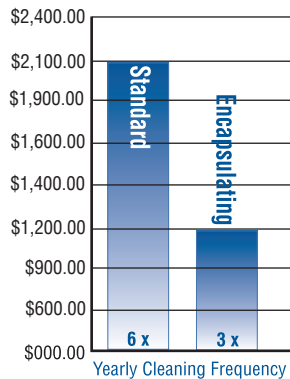

Seeing is Believing! The Difference is Crystal Clear

When using Encapsulating Cleaners, The Secret Is In The Savings...

By switching to encapsulating cleaners you can reduce cleaning frequency and labor costs by up to 50% without sacrificing cleanliness!

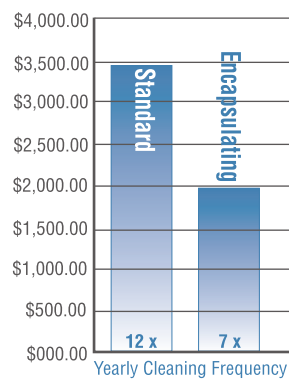

Self-Contained Extraction Procedure

Production Rate = 2,000 sq. ft/hr

Spin Bonnet Procedure

Production Rate = 1,100 sq. ft/hr

Yearly carpet maintenance cost estimate

- 55,000 sq. feet of carpet
- Labor calculated at \$10.00 per hour

Our Structured By Nature™ Line is made up of 6 great products

EXTRACTION Cleaner

A concentrated cleaner that can be used with any type of carpet extraction equipment. Provides one pass cleaning, and is compatible with high heat equipment. Leaving no sticky residue.

2 oz. per gal. Diluted pH 7.5-8.5
128SBNEXT

Encap PLUS

EncapPLUS powered by OXY-Force® is an ALL-IN-ONE cleaner and boosting agent. This oxygenated encapsulating, multi-purpose cleaner, is ideal for locations that need only one product to do it all.

Multi Dilution Diluted pH 6.5-7
128SBNOXY

PRE-SPRAY Treatment

A perfect pre-spray for heavily soiled traffic areas. Breaks down tough grease and dirt. For high powered cleaning, use in conjunction with Certified's Extraction Cleaner.

8 oz. per gal. Diluted pH 8-9
128SBNSPT

SHAMPOO/SPIN Cleaner

A quick drying Shampoo/Spin cleaner which incorporates Encapsulating technology to bind the soil, which is then removed through daily vacuuming.

16 oz. per gal. Diluted pH 7.5-8
128SBNSHP

AFTER RINSE

Encapsulating fabric rinse for carpet and upholstery. This low pH solution is used as the final step in wet cleaning. After Rinse removes any remaining residue, helps prevent browning or yellowing and leave the fabric with a soft feel and helps prevent rapid resoiling.

4-6 oz. per gal. Diluted pH 2.5-3
C282-005
