

A Safer and Easier Way to Remove Stubborn Stains

Red-Out works on fresh and dried stains without the use of bleach or phosphates.

Red-Out is effective on color residues, dyes of various kinds, wine spots, fruit punches, ink residues, furniture leg spots due to varnish or shellac stains, colored medicines, old coffee spots, and urine stains.

- Kool-aid®
- Wine
- Furniture Leg Stains
- Colored Medicines

Quarts 6/case

RED•OUT Spot & Stain Removers **C327-009**
R.T.U. pH 8

Always test on all surfaces in an inconspicuous area before using. If surface discolors or fades, do not use.

- 1- Saturate carpet or upholstery fibers with **RED•OUT**.
- 2- Cover spot with a clean towel and apply pressure or non-bleeding weight.
- 3- Inspect spot after 30 minutes. If necessary reapply **RED•OUT** and allow to dry.
- 4- Rinse several times with plain water and absorb into a clean paper towel or towel after each rinse.
