

Eliminate Odor At Their Source

Bio-Enzymatic **Urine Digester** a natural process of digesting organic waste which causes undesirable odors.

Urine Digester works 24/7

Bio-Enzymatic **Urine Digester** works around the clock, as long as there is a food source of urine, feces or any organics in the grout, sub floor, walls or other surfaces.

Apply **Urine Digester** once a day during regular cleaning schedules. The residual biologicals will continue to work all day. **Urine Digester** penetrates deep into the grout and sub floor where a bulk of the urine is located. The bacteria will actually "SEEK OUT" the deeply embedded urine.

Urine Digester contains an odor counteractant with a light fragrance that can last up to 24 hours. The fragrance can easily be "matched up" with other cleaning products used in a RESTROOM PROGRAM.

DEODORIZER**

BioBREAK™ Multi-Purpose DIGESTER

BioBREAK™ is a multi-purpose deodorizer with advanced bacteria strains and odor counteractant to eliminate odors at their source. Great for deodorizing a wide variety of surfaces, including hard surfaces, carpeting and drains. May be used in combination with most carpet care chemicals. Eliminates odors deep in carpets. Along with our OXY Force® Cleaner and ULTRA Air products, you can now clean and deodorize your restrooms totally GREEN.

This product meets the Green Seal™ Standard for Specialty Cleaning Products for Industrial and Institutional Use, GS-53, by avoiding ingredients that are toxic or harmful to humans and the environment and efficient use of packaging material.

Bio Enzymatic Urine Digester

Use on any water-safe surfaces or fabrics which have odors or stains caused by organic matter. Destroys urine, feces, vomit, spoiled foods, mildew, etc.

We recommend that you apply the digester around the urinals and commodes after the floor has been mopped with an all-purpose cleaner or quat. By doing this after mopping you have created the moist environment for the bacteria to work. This is a very simple step and requires very little training.

Nilodor's Bio-Enzymatic Urine Digester

- Can withstand temperatures up to 180°.
- Can be combined with most neutral cleaners.
- Can work in the presence of disinfectants.***
- Carpet and Rug Institute approved.**

Nilodor's **BioBREAK™** is the industries 1st GREEN SEAL® GS-53 Certified biological product

**Original fragrance only

Ensures a coordinated fragrance for all steps of cleaning and odor control. Multiple scents products may lead to a more offensive odor than the one you're trying to eliminate. Additionally, it can lead to people wondering what malodor you are trying to hide. Single Scent Solutions are extensive. These products address all four stages of restroom odor control and cleaning.

Suggested Uses and Directions:

APPLICATIONS	PROBLEMS	DILUTION	RECOMMENDATIONS
Carpeting	Pet Odors Urine, Vomit & Feces	1:2	Saturate surface with mixed solution and brush in well. Allow area to dry. For older, more difficult odors, it may be necessary to repeat procedure and/or inject into carpet padding. May be used with pH neutral extractors and shampoos.
Restrooms -Urinals, Commodes & Drains	Urine odors Urine residuals	1:8	Spray or Mop diluted product around toilets and urinals. May be used full-strength as a non-acid bowl cleaner.
Hard Surfaces	All odors	1:16	For use on all water-safe surfaces including: tile, grout, wood, vinyl, concrete, porcelain, etc.
Plumbing	Solids and odors Helps improve water flow	1:1	Pour 4-6 oz. of mixed solution into drain twice a week. Treat drains when water flow is at lowest point.
Grease Traps	Solids and odors Help reduce clean out	Straight	Pour 1 quart into trap for initial treatment. Thereafter, treat trap with 6-8 oz. per day.
Septic Tanks	Solids and odors Help reduce clean out	Straight	Use 1 quart for initial treatment. Thereafter, treat with 1 pint per week by flushing down toilet.
