

Liquid **Enzyme Pre-Spray** is a special formulation containing enzymes that break down and emulsifies the toughest oily soils and build-up on both residential and commercial carpeting.

It may be used as a pre-spray for carpet cleaning or as a wet cleaning spray for upholstery cleaning. Complete and thorough removal of organic odors and related soils using a bio-enzymatic action. It contains corrosion inhibitors and other ingredients to improve performance in hard water. It is safe, environmentally responsible, and biodegradable.

Key Features of Liquid Enzyme Pre-Spray

- Great for removing pet urine
- A powerful enzyme pre-spray & spotter
- Removes organic soils and stains

For Easy Removal of Organic Stains, Soil, and Odors

Liquid Enzyme Pre-Spray & Spotter

	Quart 6 case	Gallon 4 case
Liquid Enzyme Pre-Spray	C004-009	C004-005
Diluted pH 6-6.5		

TRUCK MOUNTS - Prepare the cleaning solution concentrate by adding 2 to 4 quarts (946 ml- 3.785 L) of **ENZYME Pre-Spray** to 5 gallons (18.9 L) of water in the concentrate tank.

PORTABLE EXTRACTION MACHINES - Add 4 to 8 oz. (120-237 mL) of **ENZYME Pre-Spray** to every 5 gallons (18.9 L) of water.

USE AS A DEODORIZING PRE-SPOTTER - Mix 50/50 with the warmest possible tap water and treat as you normally do with non-bio active spotters. **For hard to remove spots**, cover spot with a hot, wet towel if convenient. Cleaning action will continue as long as the carpet remains wet.

CARPET AND UPHOLSTERY ODORS- Caused by urine, feces, vomit, spoiled foods or other organic wastes: Clean area with wet sponge. Dilute 1 oz. (30 mL) of product with 2 oz. (60 mL) of warm water. Saturate surface with mixed solution and brush in well. For older, more difficult odors, it may be necessary to repeat procedure or inject into carpet backing.

SURFACE ODORS -Dilute 1:16 for use on all water-safe surfaces.

RESTROOM ODORS- Spray full strength on or around toilets and urinals to remove the odor source. Dilute 1:8 for mopping applications.
